

NEW PERSPECTIVE ON AN OLD TRADITION

DESIGNED BY CASABELLA INTERIORS

“One of the best things about having a design studio within a shop is that we’re able to bring our vision to life in a way that shows our customers what’s possible within their own homes. During the holidays, we transform Casabella Interiors into a sophisticated winter wonderland, and our upside-down tree is a lush example of infusing an unexpected design element for dramatic impact. Mounted on a ceiling bracket, our long-loved bottom-up faux tree frees up floor space. And since the luminous ornaments hang at eye level, it makes a breathtaking style statement.” – Michele Chagnon-Holbrook, owner & principal, Casabella Interiors
